

## Welcome to the Year 1 Working Together – *Read Write Inc.* Phonics Meeting

February 2024

The Government's 2023 **Reading Framework** sets out extensive research that underpins the importance of talk, stories and phonics.

When children start learning to read, the number of words they can decode accurately is too limited to broaden their vocabulary. Their understanding of language should therefore be developed through their listening and speaking, while they are taught to decode through phonics.

However, when they can read most words 'at a glance' and can decode unfamiliar words easily, they are free to think about the meaning of what they read. They can then begin to develop their understanding of language through their reading as well as through their listening.

Department for Education
The reading framework
July 2023

Phonics is the method of teaching reading through the identification of **sounds** and **graphemes**.

All words are made up of individual **sounds.** These sounds are blended together to form words.

A **grapheme** is the letters we use to write the sound. It's the spelling of that sound on the page.

Using phonics, children learn to read by saying each sound and blending them to read a word.

Children learn to spell by segmenting a word into sounds and writing the matching graphemes.

## **English alphabetic code**

- We use **44 sounds** to make all the words in the English language.
- The **26 letters** are used singly or in groups to represent these sounds.
- There are over **150 graphemes** (letter combinations) that represent the 44 sounds.

This makes for one of the most complex alphabetic codes in the world.

Children need to know sounds – not letter names – to be able to decode words.

We start by teaching just one way of reading and writing every sound.

We teach Set 1 sounds first. These are generally the single letter sounds. Then Set 2 – one way to read and write each of the long vowel sounds.

We refer to the Set 2 sounds as 'Special Friends' – two or three letters together that make one sound.

										nk

Once children know how to read Set 2 sounds, they start to learn Set 3 sounds. These are different ways to read, and spell Set 2 sounds.

We call these Set 3 sounds, but actually they are the same sounds as in Set 2 but with a different spelling. We say, "same sound, different spelling".

We give children a hook to learn the sounds by using pictures in the same shape as the letter.

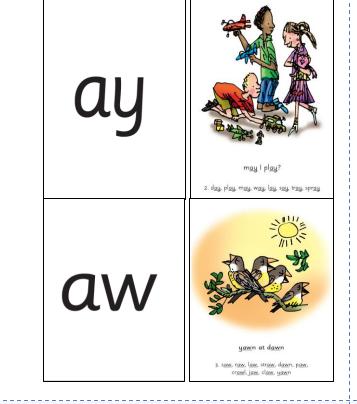

We teach the children to name the mnemonic pictures before they learn the sound.

Children also use the picture mnemonic to learn to form letters correctly at the same time they learn to read each sound.

We use picture phrases to help children remember the Set 2 and Set 3 sounds.

Fred helps children learn to blend sounds into a word.

Fred can only speak in sounds. He says d-o-g, h-a-t etc. We refer to this as 'Fred Talk'.

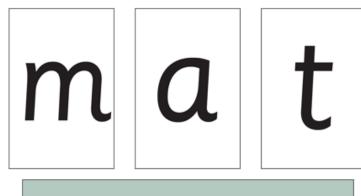

He says the sounds c-a-t, and then children help him to say the word (c-a-t cat).

This is how we **quickly** teach children to blend orally.

Alongside teaching children sounds, we teach them to blend sounds to read (or **decode**) words, using 'Fred Talk'.

mat

Then children practice reading these sounds in words using the routine 'Special Friends', 'Fred Talk', read the word'.

They spot the 'Special Friends' first, then Fred Talk to read the word.

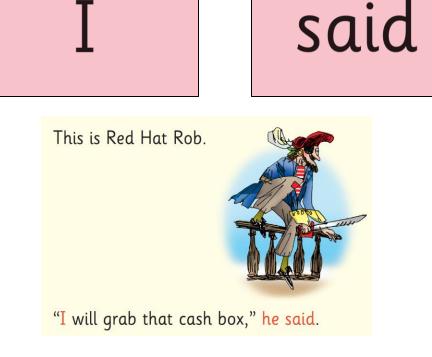

crawl

Some words are 'tricky' because they contain letters that don't match the sounds the child has been taught.

We teach these common exception words as Red words.

In the early Storybooks, these words are printed in red text.

Children read Read Write Inc. Storybooks that match the sounds they can read.

They read each Read Write Inc. Storybook three times in class with their partner.

Re-reading the same book helps children to become confident readers. Each time they re-read, they build their fluency/speed and comprehension because they can read all of the words in the Storybook.

"Snatchosaurus is a very dangerous dinosaur," she said. "So it's obvious! We need to find an *even more* dangerous dinosaur to catch him!"

"But where can we find a dinosaur like that?" asked Stegosaurus, cautiously.

"We will make one!" came the reply.

So they got out their scissors, and their pencils, and their paper, and their card, and their paints, and their sticky tape ... and they made ... a Catchasnatchosaurus! And the famous Snatchosaurus was never seen again!

Once the children have read their Storybook 3 times in school, you will be able to access the same story, plus a quiz, by visiting the Oxford Owl website.

Your child's individual login can be found in their yellow Reading Diary.

Your child will also bring home a Book Bag Book that links to the story they have read in class.

We continue to provide access to the Reading Buddies online books, that are linked to your child's reading level, but may not be fully decodable. These are provided as an additional resource and are intended to promote your child reading for pleasure.

You will regularly get sent film links to Virtual Classroom lessons that match the sounds and words your child has been learning in school.

These will be sent to you via Marvellous Me.

Watch these films with your child to help them to practise reading the sounds and words until they can read them speedily.

Simply click the link and watch on a tablet or other device.

## What can you do?

Stories provide a wealth of language we don't use in everyday talk.

The more stories, poems and nursery rhymes children know **well**, the more easily they will be able to understand what they read, when they can read.

Children are wired to thrive on **repetition**.

When hearing your child read their Storybook -

- Listen to your child read the same Storybook again and again
- Encourage them to use 'Special Friends', 'Fred Talk', 'read the word'
- Discuss the story and encourage their storyteller voice.

Any Questions?
