

## Wodensfield Core Values

Our school values are woven into teaching and learning in order to develop improved social and emotional skills that will positively affect pupils' behaviour and happiness. Every month we focus on a specific value, exploring what the value means and looks like in our daily lives and interactions with other. Links are made to local, national and global events both past and present. Our PSHE curriculum together with whole school assemblies and daily discussions and reflection in classrooms enable our values live and breathe throughout the school community.

The school celebrates the achievements of significant individuals, from all walks of life in assemblies and also within our broader curriculum. Links are made to appropriate values in order to provide lived examples and role models.

The Ready, Respectful and Safe expectations are reinforced through our core values. Recognition is given to children and adults who go "over and above" in all aspects of school life.

Our Core Values				
Ready to achieve	Inspired to be the best we can be	Respectful	Safe	Happy and Healthy
